- For questions regarding Enrichment Classes at East, please contact Margaret Regan at [Mregan@chclc.org](mailto:Mregan@chclc.org).

## August 1-4

### **Creative Clay: A Clay Design Workshop - Grades 6-10:**

Have fun expressing your creativity with clay! Create projects using coil, slab and pinch pot techniques. Students will design and create ocarinas, which are small flute-like wind instruments made of clay. Students will learn to paint with glazes and their projects will be ready for pick up the following week. **\$155 supplies included.**

**August 1-4 (9 AM-12 PM)**

### **Drama and Acting - Grades 6-8:**

This workshop provides young actors with a foundation for basic acting skills while building confidence and creativity through the world of live theater. Students will have the opportunity to practice and perform scenes during the course. **\$140 supplies included.**

**August 1-4 (9 AM-12 PM)**

### **Fun with Graphic Design and Photoshop - Grades 6-10:**

Participants will learn the basic tools of graphic design using Photoshop software. Lessons will incorporate the users' individual interests in producing their project/s. Students can choose project themes such as music, entertainment, or sports. Design techniques will be introduced so that participants can create a t-shirt design, a CD or DVD cover. **\$160 supplies included.**

**August 1-4 (9 AM-12 PM)**

### **Drawing 101 - Grades 6-10:**

This offering, for artists of all levels, will include the basics of sketching and shading and other drawing techniques. Projects will range from a still life to a self-portrait. Just come with your enthusiasm and creativity and the teacher will guide you. **\$135 supplies included.**

**August 1-4 (1 PM-4 PM)**

## August 8-11

### **3D Modeling with SketchUp 2015- Grades 6-10:**

This exciting course will have students quickly modeling in 3D SketchUp software. Architects and engineers use this program to help visualize their designs. Students will learn how to create and modify 3D models. Effects such as material editing, background scene selection and adding shadows will also be taught. With the software students will be able to create and layout furniture in a room of a house in 3D and print. **\$155 supplies included.**

**August 8-11 (9 AM-12 PM)**

### **Model Rockets & CO2 Cars – An Applied Technology Workshop - Grades 7-11:**

Participants in this workshop will explore technology through hands on e-designing and fabricating model rockets and CO2 cars. Students will enjoy learning the basics of rocket and model building in a safe environment. Participants will be instructed in proper/safe methods of using all the tools and equipment needed for this workshop. **\$165 supplies included.**

**August 8-11 (1 PM-4 PM)**

### **Art Workshop: Grades 6-10. Students can do either category**

#### **Creative Clay**

Have fun expressing your creativity with clay! Create projects using coil, slab and pinch pot techniques.

**\$155. Supplies included**

**August 8-11 (1 PM-4PM)**

**OR**

#### **Watercolor Painting**

Come have fun this summer learning the basics of watercolors! Students will learn classic techniques as well as Asian calligraphy and Chinese brush painting.

**\$150 supplies included.**

**August 8-11 (1 PM-4PM)**
