

ACT TUTORIAL

These are 4-day separate workshops: Math-12 hours, English-12 hours, and Science-6 hours, which will be held the weeks of July 30-Aug. 2 and August 6-9. The session hours for Math and English are: 9:00 am - 12:00 or 3:45 pm - 6:45 pm. The session hours for Science are: 12:15 - 1:45 pm or 2:00 pm - 3:30 pm. The program is sponsored by the Cherry Hill Guidance Departments. Workshops will be held at Cherry Hill High School East and West. Enrollment will determine which sessions run and where.

These courses are designed to familiarize the student with the specific test material required for the ACT. We will explain concepts tested on the exam and teach proven test-taking techniques. All lessons are focused on preparing for the ACT. We will work on actual simulated ACT questions and explain the answers. A practice test will be provided for students to do on their own. We will cover such topics as: the actual breakdown for the test, how best to prepare for the test, and how the guessing factor can be used to significantly increase your scores. Proper test preparation greatly helps to minimize the tensions that can seriously lower scores for many students.

The fees for the Math and English sessions are **\$200** each for all Cherry Hill high school students/residents and **\$250** for non-residents. The Science session is linked to the session you sign up to take. The workshops for the English & Math content areas are 12 hours, and 6 hours for Science. The class size will be kept to 10-12 students. It is priced below cost to encourage maximum participation and to ensure affordability. Parents who can, may make extra contributions to help pay for students who cannot afford the fee and to subsidize our low cost fee. All contributions are tax exempt. All checks and registration forms must be submitted to the Guidance Department by **Tuesday, June 19, 2018**. Each registrant will receive a letter confirming registration, and another letter of final details before the workshop begins. We have tried to schedule the workshops so they will not conflict with pre-season training.
